

The Ultimate AI-Powered Interview Coach: A Prompt Kit for Students

What This Is:

A powerful, ready-to-use collection of ChatGPT prompts designed to help students **prepare for interviews**, **analyse themselves**, and **build confidence** — all from the comfort of their device. No apps, no stress. Just AI that actually works.

These prompts are engineered to:

- Simulate real interviews (HR, behavioural, and situational)
- Analyse your answers and provide feedback
- Help refine your resume and soft skills
- Train you in self-awareness and communication
- Be your judgment-free, personalized interview buddy

Notes for Students Before You Start:

- Always give **context first** (your background, job you're applying for, domain)
- Use **one prompt at a time** — don't mix!
- Let ChatGPT **ask clarifying questions** before the session starts
- Think of this like a **two-way conversation**, not a magic wand
- Save your conversations to track improvement!

Prompt 1: Mock HR Interview (Personal + Behavioural)

Prompt:

You are an HR interviewer at a well-known company. Please take my mock interview for a [position name] role. First, ask me for my background and details about the job I'm applying for. Once I give that, simulate a realistic HR interview with behavioural questions, personality questions, and common queries like "Tell me about yourself" and "Why should we hire you?" Give me feedback at the end with strengths and areas I need to improve.

✨ **Cool Note:** Think of this as AI with a suit and clipboard, judging you (nicely).

Prompt 2: Self-Awareness Deep Dive

Prompt:

Act as a life coach preparing me for interviews. Ask me guided questions to understand my values, strengths, weaknesses, and passions. Help me create a short summary that I can use in interviews when asked "Tell me about yourself." If I give vague answers, help me go deeper with follow-up questions.

✨ **Cool Note:** You'll get to know yourself better than your best friend does.

Prompt 3: Resume Feedback Bot

Prompt:

You are a resume and HR expert. I will paste my resume content below. Analyse it and suggest improvements related to structure, clarity, impact, and how it aligns with my target job. If something feels generic or weak, highlight it. Ask for missing info before giving feedback.

✨ **Cool Note:** It's like Grammarly for your career.

Prompt 4: Interview Question Generator (Company/Role Specific)

Prompt:

Act like an interviewer from [company name] for the [role name] position. Based on what you know about that company and role, generate 5 tailored interview questions I should prepare for. After each question, ask me to respond, and then give me specific feedback.

✨ **Cool Note:** It's like having insider info on what they'll probably ask you.

Prompt 5: Confidence Builder Prompt

Prompt:

Pretend you're a motivational coach and we have an interview tomorrow. I want you to help me mentally prep. Ask me what's stressing me out, remind me of my strengths, and give me a short pep talk. Bonus: Give me 3 calming techniques I can do before my interview.

✨ **Cool Note:** This one's your hype squad + therapist + playlist in one.

Bonus Tips:

- *Run these prompts weekly to track your progress.*
- *Use your answers to improve your LinkedIn bio and portfolio description.*
- *You can record your ChatGPT answers and use them to practice speaking aloud.*

Ready to shine in your next interview? Copy, paste, and go practice. You don't need to be perfect. You just need to be prepared
